

Standard Commercial

At Portable Buildings Brisbane, our philosophy is to provide the best value money can buy in this competitive market. We do not necessarily want to be the cheapest in the market, to us it is about value, where the price, customer satisfaction and quality all add up to provide best value for money.

Our standard commercial range is based upon our units having a 3m width with lengths varying from 6m to 12m with a low skillion roof.

These units have varying floors plans and fit-outs to accommodate for site offices, ablution blocks, crib rooms or lunch rooms and various other configurations.

Our units are clad in Colourbond CGI installed horizontally with Superdek roofing. All of our buildings are fully insulated using R3 insulation with thermal break wrap. Internally our plasterboard lining is painted with 3 coats of premium paint to provide a quality finish. A choice is available to have traditional cornice installed or to have your ceiling join square setted. Our units are fitted out electrically by qualified electricians and we use qualified plumbers when required.

Our motto is Pride Passion and Excellence. We stand by our product and are proud of the way we do things to get the end results. Our passion shines through in that this is not just a job, it is our family business that we intend to continue to grow throughout the years. Excellence is the standardisation of best practice, where we strive for methodologies that achieve repeatable and reliable results.

PRIDE. PASSION. EXCELLENCE.
